

Instalar aplicativo GitHub em Windows

Você pode usar o GitHub por meio de aplicativos para Windows e Mac e também por linha de comando em sistemas Linux/Unix.

Neste tutorial iremos trabalhar com o aplicativo para Windows.

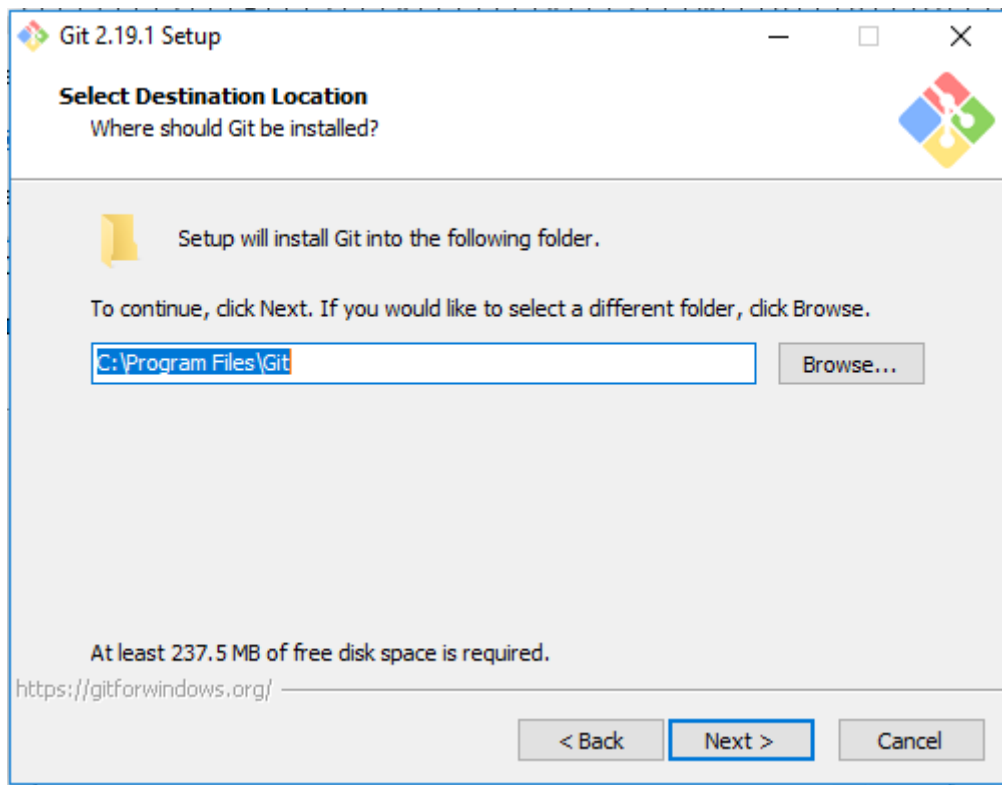

Baixe o aplicativo no site do Git por meio do link:

<https://git-scm.com/download/win>

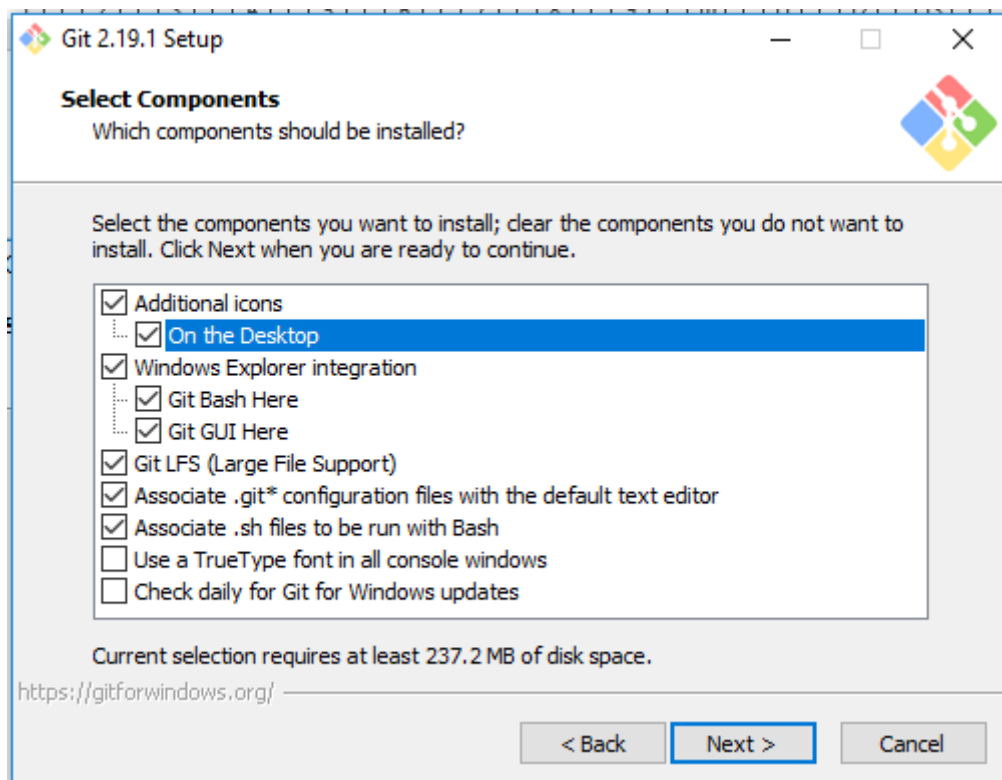

Proceda a instalação:

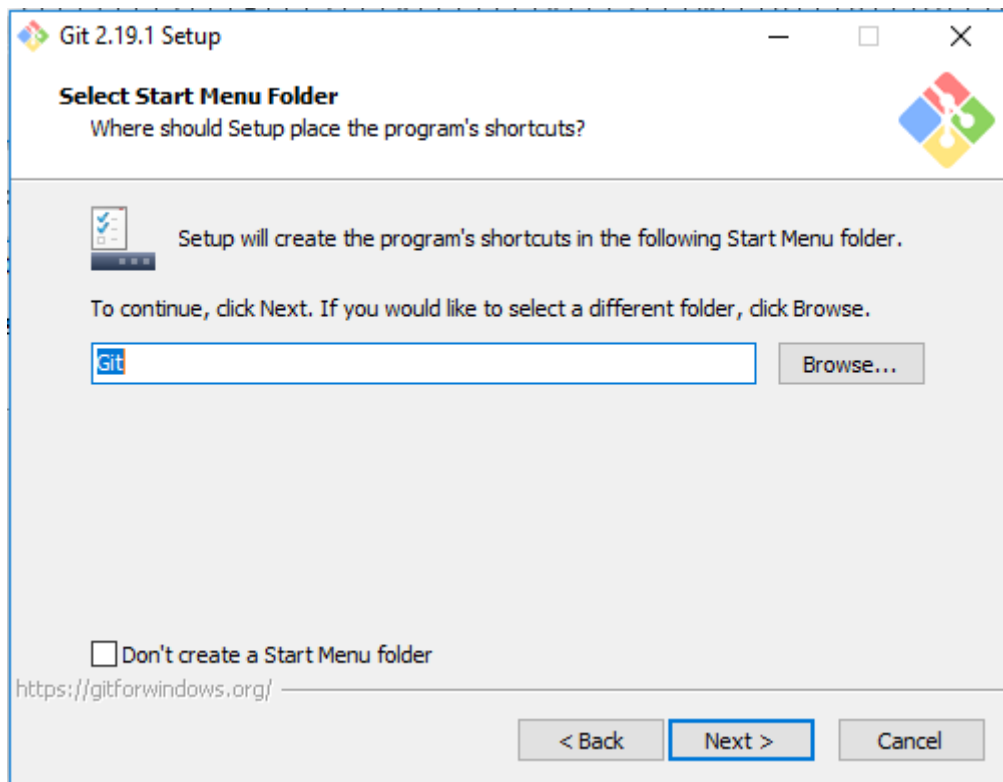

Selecione o local de destino do aplicativo:

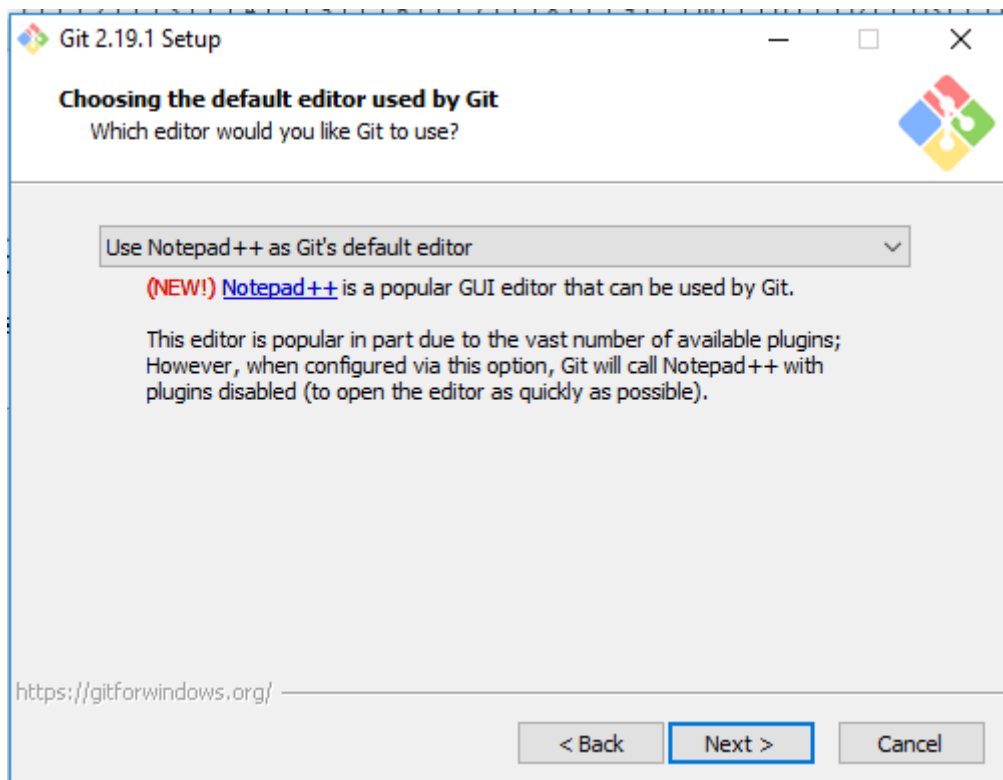

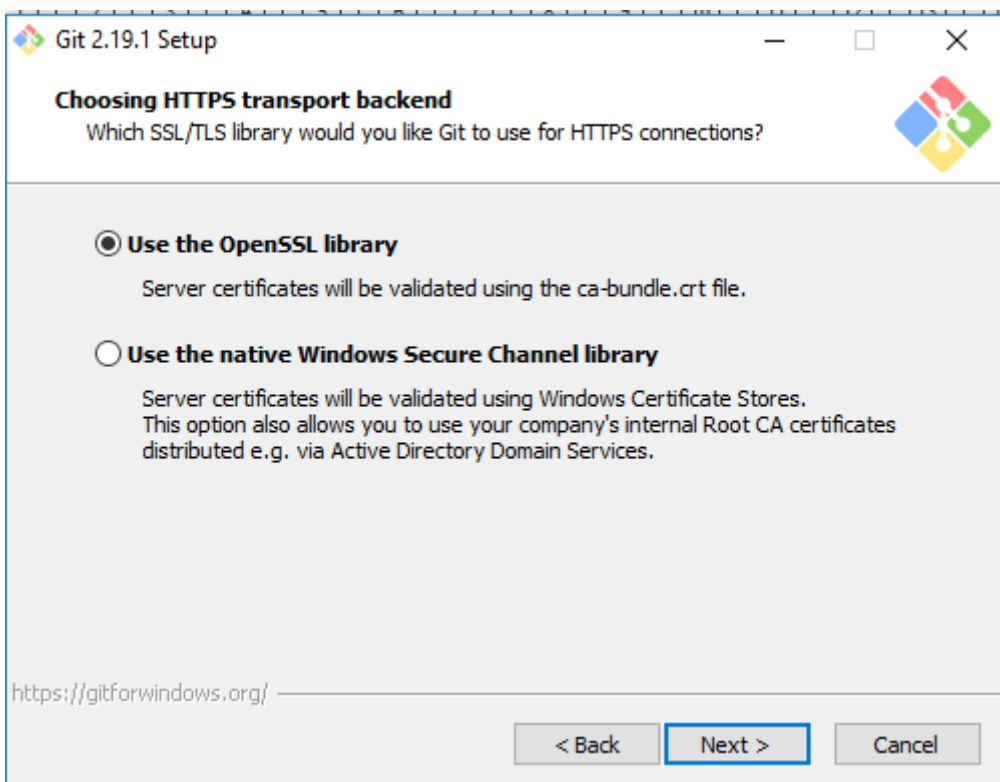

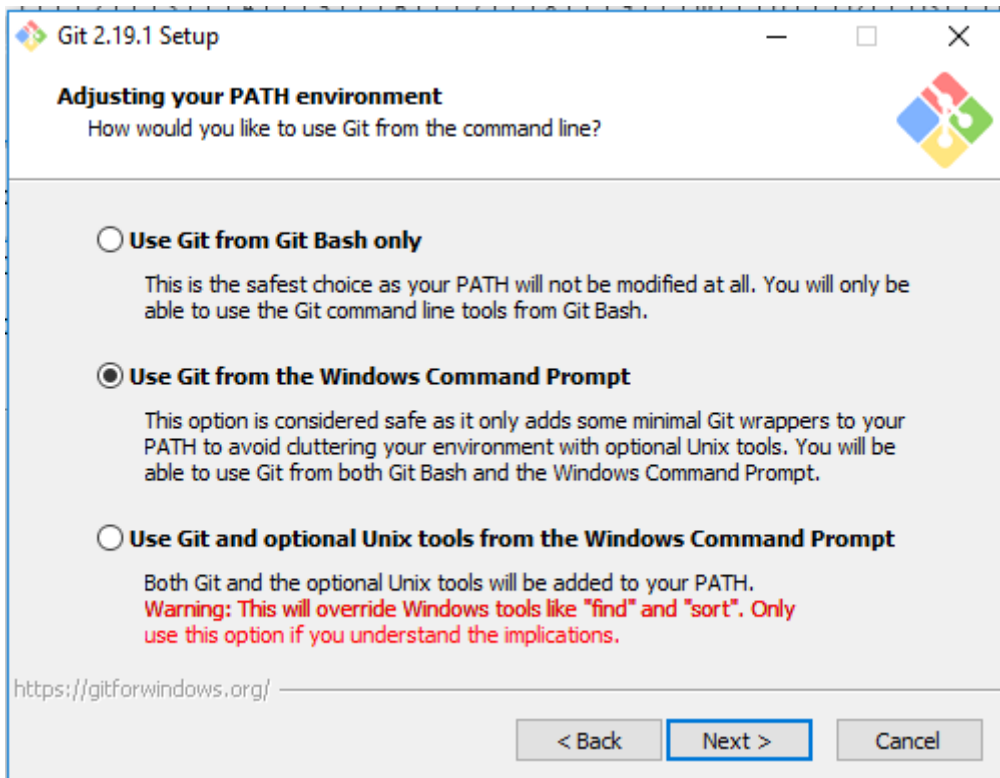

Marque para criar o ícone no Desktop.

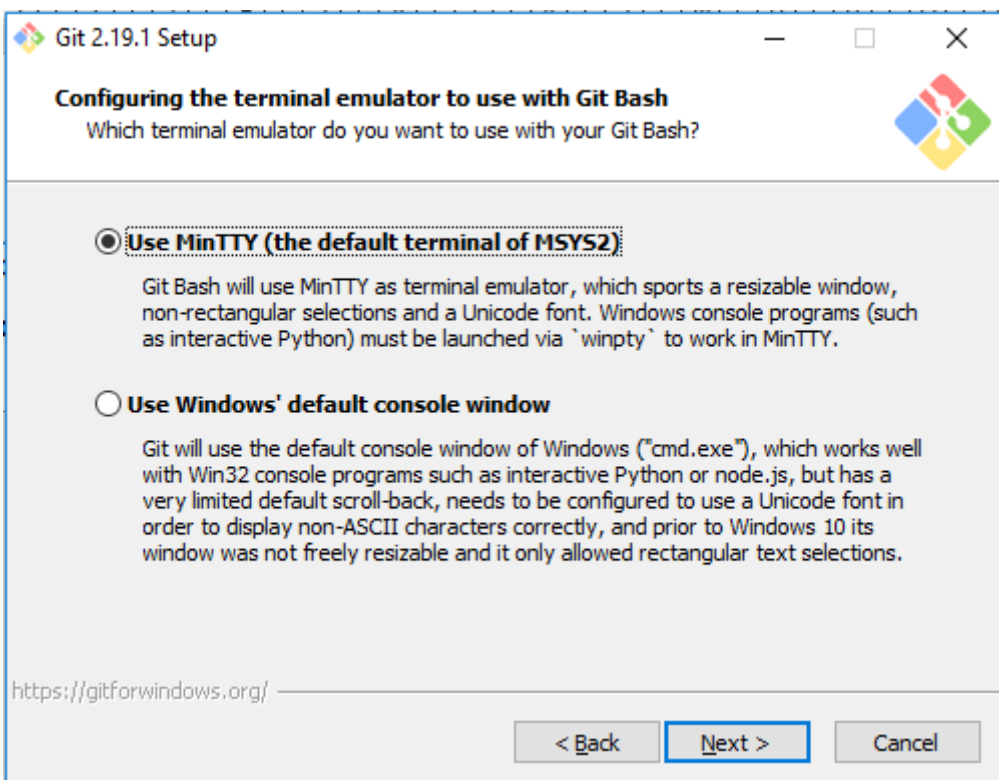

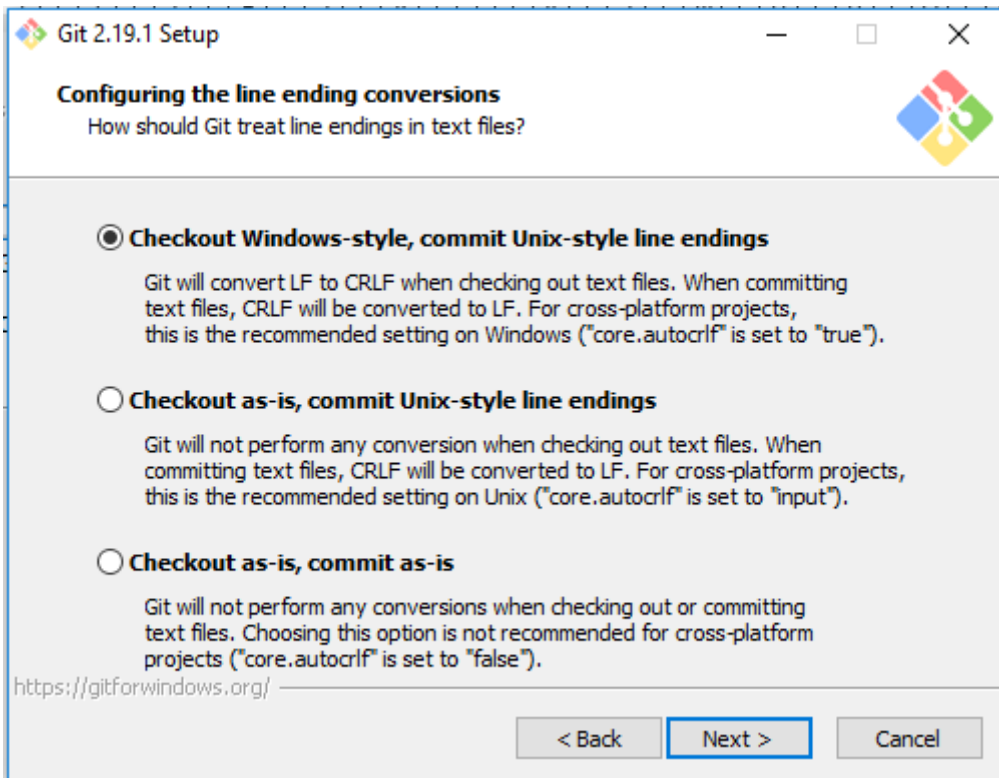

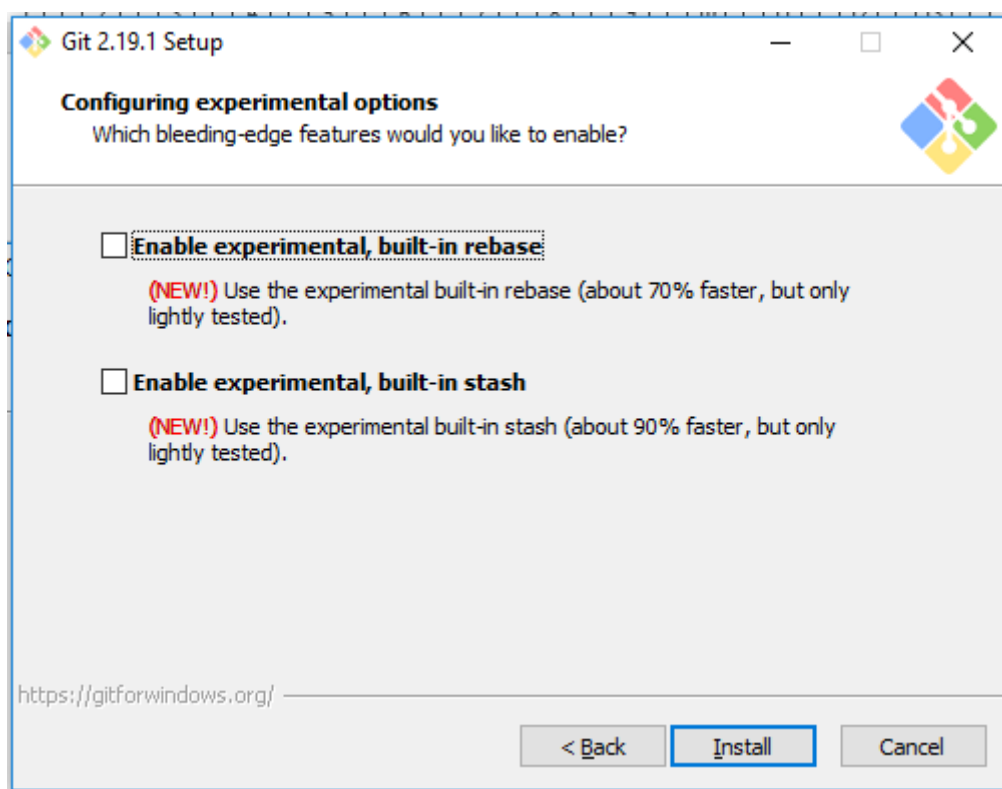

Selecione o editor de textos que você irá utilizar como padrão.

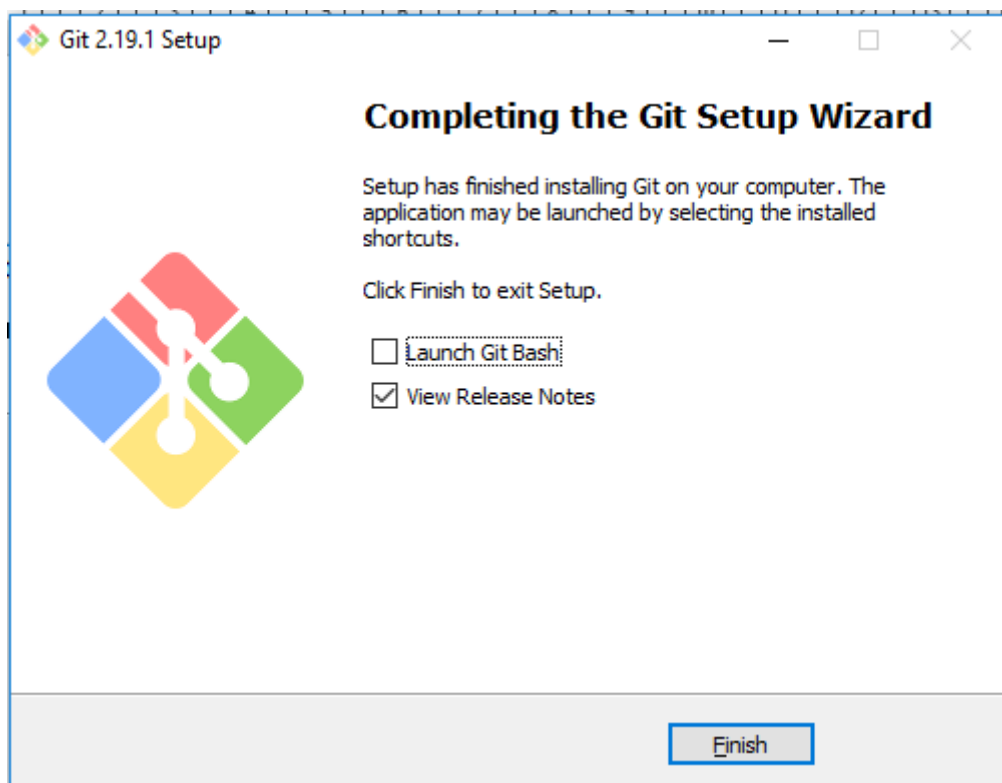

Aguarde a instalação.

Finalize a instalação.

Obs: Se marcar a opção "Launch GitBash" a aplicação será executada ao clicar em "Finish".
